RENEWED PETITION FOR ACCEPTANCE OF UNINTENTIONALLY  
DELAYED LATE CLAIM OF PRIORITY

Pursuant to 37 C.F.R. § 1.78(a)(3), the Applicant renews his request that the Office accept an amendment to his claim of priority, set out in a separate filing submitted herewith. This amendment changes to the priority to claim to reference the Applicant's nonprovisional U.S. Patent Application Serial No. 10/306,125 as a "continuation-in-part" application.

The entire delay between the date the claim was due and the date this claim is being filed was unintentional. The Applicant intended to claim such priority in the application as filed, and in fact set out a priority claim to application Serial No. 10/306,125 in the cross-reference to related applications as originally filed. However, there was an inadvertent failure to specify the relationship between application Serial No. 10/306,125 and the instant application. This has been done in the requested amendment. The required fee has been submitted previously.

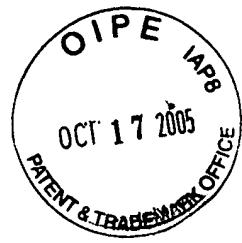

Respectfully submitted,

---
